Internal and Deliberative

Hi John

The Region is working on proposed permit for Dewey Burdock injection wells, and as a part of the cumulative analysis the clients have looked at the air impacts. The attached document is that analysis. I wonder if you have time this week, by mid-day Thursday, to review for readability (and whatever else you find!). I am reviewing for accuracy with the CAA. If you have time, lemme know and we can set up a meeting to discuss on Monday/Tuesday so I can give you some background.

Just a note that I amended the format here, the clients sent it in 11 point font single-spaced, and as I'm used to reviewing in the attached format, so changed it for my/our review ☺

Thanks!

-Sara
